

## Profile

I am a budding software developer with practical experience in a variety of technologies. Proficient in .NET (ASP.NET MVC, ASP.NET Core), Java, C, TypeScript, and Angular, I have a solid understanding of SOLID principles and Entity Framework (EF). Through hands-on projects and continuous learning, I have developed efficient coding and problem-solving skills. Committed to growth and improvement, I am eager to apply my knowledge and contribute to new goals with your development team.

## Projects

### RentCar Back-End Side

This project encompasses a car rental platform developed based on the principles of RESTful architecture

**Tech Stack:** C# .NET, OOP, Entity Framework, LINQ, AOP, Cross-cutting Concerns (logging, caching, authorization, transaction management), SOLID, JSON Web Token (JWT), Fluent Validation, N-Tier Architecture, Postman

### N Layer App

This project is focused on establishing a layered architecture using both ASP.NET Core API and ASP.NET Core MVC. Through the integration of API and MVC, the goal is to demonstrate the combination and interaction of layered structures.

**Tech Stack:** Global Error Handling, AutoMapper, Entity Framework (EF), Action Methods, Migrations, UnitOfWork, Autofac, Generic Repository, N-Tier Architecture

### E-commerce Website

This project has been developed based on the concept of an e-commerce shopping website, implemented using N-tier architecture.

**Tech Stack:** LINQ, AOP, Cross-cutting Concerns, SOLID, JWT, Fluent Validation, N-Tier, Postman

### StoreApp

The shopping application I'm developing is based on ASP.NET Core MVC training

**Tech Stack:** C#, ASP.NET Core MVC, Dotnet CLI, JavaScript, Bootstrap

## Languages

**English** — Proficient  
B2

**Turkish** — Native/Bilingual  
C2

## Education

### Language school

American Culture Language School

2023/10 – 2024/05 | İzmir, Turkey

B2 (European Language Portfolio)

### Bachelor degree

Bartın University

2019/09 – 2023/07 | Bartın, Turkey

Management Information Systems

## Certificates

- Software Developer Bootcamp (C# + Angular)
- AspNet Core Web/API + N-Tier | Best Practices
- Oracle Certified Professional, Java SE 6 Programmer
- Oracle Certified Professional, Java SE 8 Programmer

## Skills

Programming Languages: C#, Java, C, TypeScript

Frameworks and Libraries: ASP.NET MVC, ASP.NET Core, Angular, Entity Framework (EF)

Web Technologies: HTML, CSS, JavaScript

Database Management: SQL Server, MySQL

Development Principles: SOLID Principles, Object-Oriented Programming (OOP), Aspect-Oriented Programming (AOP)

Tools and Platforms: Visual Studio, Git, GitHub
